Coastal Conservation Association of South Carolina

June 11, 2010

Dear Valued Sponsor of Conservation,

Thank You! - On behalf of our state's marine resources for your support of CCA South Carolina. Because of dedicated saltwater anglers, such as yourself, CCA South Carolina continues to be the collective voice of recreational saltwater fishing in the Palmetto state and our numbers and abilities continue to grow.

By supporting the East Cooper Chapter as a "**Gold Sponsor of Conservation**", your contribution of \$500.00 is paramount in making this event the overwhelming conservation success that it has become. As a reminder, except for your membership portion, all of these funds remain in the state for CCA SC conservation projects and issues.

For your tax purposes please know that your contribution includes gifts and services which amount to \$235.00. Along with this letter of appreciation we would like you to have this special CCA SC sponsor package to display your level of commitment to marine conservation and as a way of encouraging others to match your level of dedication.

Your support and participation is so critical and together we can, and have, accomplished much for this sport and this resource that brings such enrichment to our state and our lives. As we go forward, there are still many challenges facing our state's coastal traditions and the future of recreational angling will depend on fishermen to set the standards. YOUR CCA South Carolina will be there and we need you to remain a strong, willing, and vocal member of this "school"; our sport and the resource depend on it. Thanks again.

Your Cork's Bobbin',

Scott Whitaker

Scott Whitaker
